

Flexible Solutions for Every Home Office

HON®

The way you work is changing every day, and you're most likely still figuring out your perfect set up. Our Team at HON is here to give you the comfort and function of the office you need in your own home. Whether you have a dedicated room or share the space with the rest of the home, it's important that you have the right products that fit you and your home office needs.

Which solution best fits your needs?

SMALL HOME OFFICE

It's time to get creative. You might not have space for a formal home office, but there's room for multifunctional desks or ergonomically friendly seating and if you're cramped for space you can stow your desk away when the work day is done.

p. 2

SHARED SPACE | HOME OFFICE

As you continue to explore the new workstyles in your own home, you may have found a nook that is just right. Set up a semi-dedicated space using a small movable table that can be put out of the way and won't sacrifice your style.

p. 6

DEDICATED ROOM | HOME OFFICE

Now that it's time to focus and get to work, there's nothing better than a designated office space to maximize productivity. Explore the option of a traditional or modern office solution designed to ergonomically support you and the aesthetic of your home.

p. 10

MAKE THE MOST OF YOUR SMALL SPACE

Sometimes the simplest solution can be the best solution. While able to adjust legs up or down, this small Build table fits right in leaving plenty of open space underneath for additional storage. To top things off, the Convergence chair not only serves as your desk chair, but doubles as extra seating when guests arrive.

Convergence® shown in Apex Basalt (APX25)
Build™ top shown in Natural Maple (N) and legs in Titanium (T1)

Small Home Office | Solution 1

\$599.99

Featured Product

Convergence®
Task Chair ReActiv®

- Black mesh is breathable for all day comfort and support
- Thick seat cushion takes the stress off the lower body throughout the day to provide a more natural posture

Price: \$269.99

Build™
Table Desk 24"D x 48"W

- Four adjustable post legs fits the table to your needs
- Glides and optional casters available for an additional upcharge

Price: \$330.00

Visit <https://www.hon.com/work-from-home-solutions> for more information!

COMFORT IN THE KITCHEN

Regardless of its size or layout, the kitchen can also function as your office. Transform your "surface" into a standing height desk with the Coordinate Portable Desktop Riser. And when it's time to take a seat, keep active with the Perch Stool that keeps you energized, healthy and productive all day.

Perch™ shown in Black Fabric (ASF10)
Coordinate™ shown in White (WHT)

Small Home Office | Solution 2

\$699.99

Featured Product

Perch™ Stool

- Lightweight design promotes a forward posture and easily changes heights
- Seat moves 360-degrees and returns to a center facing position

Price: \$320.00

Coordinate™ Desktop Riser 31"D x 35"W

- Easily sits atop an existing counter to create sit-to-stand functionality
- Includes keyboard tray and surface for computer monitors or laptops

Price: \$379.99

Visit <https://www.hon.com/work-from-home-solutions> for more information!

SPACE SAVER

This approach requires getting the most out of every inch of space by adding a versatile Between table with a comfortable Solve task chair. Once the work day is done, nest it away to make room for other activities.

Solve® shown in Designer White Frame and seat in Dapper Ash (DAPR20)
Between™ top shown in Silver Mesh (B9LOFT) and base in Black (P71)

Small Home Office | Solution 3

\$749.99

Featured Product

Solve®

Mid-Back Task Chair

- ReActiv® back flexes to provide a firm fit
- Seat slides forward when the back flexes to provide a more natural posture

Price: \$399.99

Between™

Multi-purpose Table 24"D x 48"W

- Base flips the table vertically to nest and save space
- Scratch-, spill- and stain-resistant laminate stands up to heavy use
