ELEVATE EVERY EXPERIENCE

In the wake of accelerated changes impacting healthcare, the role of space has never been as pivotal as it is today. With a portfolio of integrated product solutions and a simplified procurement process, HON delivers spaces that keep pace with the demands of today so you can elevate every experience to impact the way healthcare is delivered tomorrow.

+

=

Patients

4X

Likelihood of changing provider to find their ideal experience.

Patients seek convenience throughout their journey. From short and comfortable wait times to engaging conversations with caregivers in versatile consultative settings.⁶

Caregivers that deliver a "superior" customer experience achieve net margins 50% higher than those providing average experiences.³

Caregivers

Nurses reporting burnout.¹

Settings where teamwork thrives and new work styles are supported lead to greater job satisfaction, reduced stress and more responsive patient service.⁵

Between 30-60% of caregiver costs are related to unnecessary processes and inefficiencies.⁴

Administration

Millennials will account for ¼ of the workforce by 2030.²

51% of Millennials surveyed prefer agile work settings and 75% would embrace a flexible schedule.⁷

For the first time ever healthcare has become the largest source of jobs in the U.S. Adapting to win the war on talent has never been more critical.

Temperature Check Station

Our products support safety, privacy, mobility and flexibility. Set up indoor or outdoor, in a clinic, hospital, or even the entry way of a commercial building. We can provide solutions that are cost effective and delivered quickly to get the job done and provide protection for everyone. We have multiple options to support your process and promote community mitigation activities through pre-screening. All product is easy to wipe clean, minimal to no assembly, and can be moved with ease for different uses throughout your healthcare space.

A First Line of Defense

A safe environment begins at the front door; HON's temperature check station provides caregivers the flexibility and support needed to quickly assess patients as soon as they enter the building.

SMARTLINK® Mobile Storage/Bins

Waiting Room & Reception

When designed around people's needs, these versatile settings help to create a better experience by fostering more meaningful uses of time and increasing patients' confidence that they are receiving the best care.

A Healthy First Impression

The best way to remind patients to use hand sanitizer is by making it easily accessible and always within sight. It's important to place hand sanitizer in public spaces to engage in hand hygiene where it's needed most.

Exam Room

No longer just a place for medical exams and treatments, these high-functioning spaces are designed to provide thoughtful hosting amenities and to encourage patients to be co-directors of their own health.

Caregiver Stations

A clinician's work has become more varied with new technologies, methods of record-keeping and administrative tasks being adopted. With these demands comes the need for a range of spaces optimized to support the relationships and dynamic roles that clinicians interchange between during a shift.

Administration

Periods of privacy and opportunities for focus at the workstation can improve performance, as constant distractions can increase errors. Visual and acoustic privacy combined with flexible storage and accessories drives the efficiency of administrative spaces.

Patient Consulting

With the movement toward better space utilization, the traditional physician's office has evolved from a private closed-door space to a more open and flexible workspace that focuses on patient consultation and better collaboration between physicians.

Consultative Care

The majority of primary care visits can be handled without a visit to the traditional exam room, making consultative settings more valuable. Whether consulting from a traditional office space or a tele-care space, HON has the product offering that will make everyone comfortable.

Importance of Community Spaces

For most healthcare facilities the cafeteria has become the communal hub. More people go to the café than any other space, besides the entrance.

Café & Community

Well-designed dining areas can encourage healthy behaviors in staff and community members and improve the patient experience. As healthcare organizations look to use facility space more efficiently, dining areas are becoming the new commons and waiting rooms.

Product Cleanability

Our wide variety of durable, cleanable, and breathable fabrics provide just the right touch. Go to hon.com/Healthcare to learn more about cleanable fabrics and finishes.

CRYPTON

A strong, quick-drying, and easy-to-clean fabric for your facility—Crypton is resistant to stretching, shrinking, and most chemicals. It is also wrinkle and abrasion resistant while staying fresh and resilient when wet or dry. When used in conjunction with Crypton disinfectant and deodorizer, create an EPA approved disinfectable system that prohibits the growth of MRSA, HIV, E Coli, Hepatitis, and many more bacteria and viruses.*

A Clean Bill of Health

In the health care setting, the role of environmental cleaning is important because it reduces the number and amount of infectious agents that may be present and may also eliminate routes of transfer of microorganisms from one person/object to another, thereby reducing the risk of infection.

VINYL

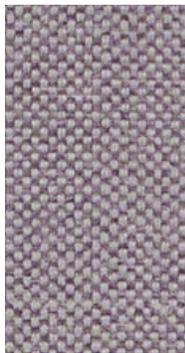

A non-woven covering, vinyl offers you high durability for extreme wear and an easy-to-clean finish. It also provides effective moisture resistance. Clean with 1:10 Diluted Bleach and Water, Virex II 256.*

SILICONE

Your environmentally friendly alternative to vinyl and polyurethane, Silicone's surface is coated in 51% silicone and 49% polyester, making it ink-erasable with water.
