**How to Order:**

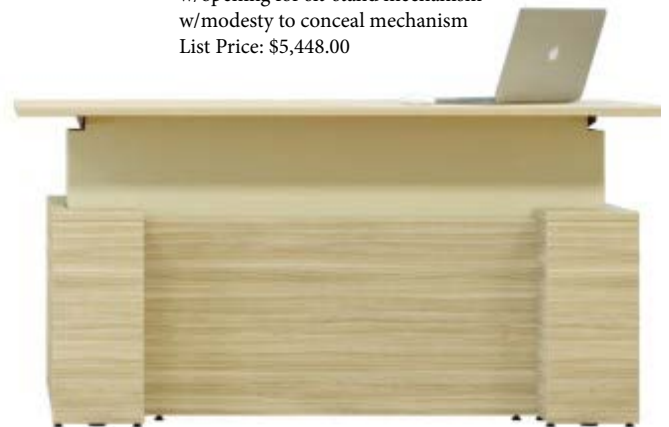

1. Determine the configurations that need powered and electrical load requirements.
2. Determine Starter Harness length and location.
3. Establish placement of Power Blocks.
4. Identify Receptacles per Power Block.
5. To figure harness length, take the center of the item where the Power Blocks are to be placed plus the length of any items the harness needs to pass under subtract 7" and use the next larger size harness, unless measurement is exactly the size of a harness.
6. Determine needed accessories.

# Premiera Conference Board Table

SEE PAGE 75 FOR CHAIR SHOWN

## Designed for Today's Conference Rooms

A smooth racetrack shape with gently tapered, boat-inspired ends creates a comfortable, inviting look that fits naturally in any conference room. The balanced profile works just as well for quick meetings as it does for longer conversations, with smaller grommets and the option to add low-profile power ports while keeping the surface clean and easy to use.

# Meet Brindle

Introducing BRINDLE, a laminate that looks exactly like it sounds. Rich, layered tones blend warm browns with subtle dark striations, creating natural movement and depth across the surface. Inspired by the organic variation found in nature, Brindle delivers a grounded, earthy presence while remaining versatile enough for modern, transitional, or classic spaces. Durable, easy to maintain, and designed to make a statement without overpowering the room, Brindle brings warmth and texture to any workspace.
